

Project Initialization and Planning Phase

Date	26 July 2026
Team ID	MIRUTHALA M K
Project Name	Global AI Adoption in Education
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	An Education Policymaker / Education Administrator	. Understand the global adoption of AI in education across countries, regions, students, teachers, and communities	The required information is scattered across different data categories and is difficult to compare quickly	There is no single interactive visual platform that presents global AI adoption trends, country comparisons, student-teacher usage, rural-urban differences, and regional adoption in one place	Challenged in understanding AI adoption patterns and making data-driven decisions for educational planning
PS-2	An Education Researcher / Data Analyst	Analyze the growth and distribution of AI adoption in education from 2015 to 2026	It is difficult to identify trends and relationships from raw records and numerical data alone	There is no centralized interactive dashboard that visually presents AI adoption levels, leading AI tools, country-level usage, and rural-urban comparisons	Challenged in extracting meaningful insights and comparing AI adoption across different dimensions
